

Dear Legislator:

As taxpayers we need to know what your office, is doing to correct the fiscal crisis in California. We are unwilling to see our hard earned tax dollars continually supporting the corrupt, wasteful and abusive Department of Corrections.

More than 50% of the 160,000+ inmates currently incarcerated are parole violators.

Release them, and do so immediately. What are they learning in such a system but more criminal behavior? Use the savings, more than one billion annually, to fund education, community based programs, job-training, etc.

This is critical for the future of California and society. Take action now, reduce the prison population, reform the prison system.

Sincerely,
